Government have examined the reports of Inquiry Officer in respect of reach “Improvements to Rudraiah Codu Drain from KM.0.00 to 4.50 and KM 4.50 to 6.00 and observed that the Inquiry Officer in his findings has stated that Charge is partly proved. The Charge states that excess measurements were recorded in two reaches to allow undue advantage to the contractors. The Inquiry Officer in his findings has stated that though excess measurements have been recorded, the excess quantity cannot be exactly quantified. The Enquiry Officer has mentioned that there is no satisfactory explanation for huge variation in quantities noticed by the inquiry team, based on which charges were framed. Also, the inquiry Officer has mentioned that it is also pertinent to note that the same quantities were arrived at by the CERP Organisation, which corroborates the findings of the team. If, that be the case, then excess measurements computed could be taken as reasonable and therefore, the Charge can be held as proved in toto.
